

# ONLINE LEARNING

## *Personal Reflections on the Transformation of Education*

This book presents a comprehensive history of the field of online education as told by many of the pioneers who created it. In doing so, it fills in the background and provides a foundation for more recent efforts. Each of the contributors discusses their work in online education and presents a personal perspective of the field. Collectively, the chapters portray the major themes and issues that have characterized the past development of online education and will likely dictate its future. The 440 page volume consists of the following chapters:
